

Members,

In an effort to support our state and local health officials, Chiphone FCU is proactively making adjustments to help combat the spread of COVID-19 cases in both Elkhart and Lake county. Starting Wednesday, November 18th, all branch locations with the exception of Middlebury will provide Drive-Thru service as normal and Lobby service by appointment. **Please contact your local branch should you require lobby service.** Our Middlebury branch will continue to operate under limited hours and provide Drive-Thru service only. Please note, our top priority is the safety of our employees, members, and guests, therefore, **masks will be required inside all lobby locations.**

In these challenging times, please be assured we are committed to providing you with the service you are accustomed to receiving, as well as equipping you with different options to maintain your account. All products and services will remain available, most of which can be handled from the comfort of your home. We are honored you have chosen Chiphone FCU as your financial institution and we greatly appreciate your patience as we assist each and every member with their financial needs.

Temporary Schedule will remain in effect until further notice!
