

Attention Members:

It has come to our attention that many internet browsers are now utilizing a “password check” tool which is an alert that populates when logging into a website. The alert looks as follows:

PLEASE BE ADVISED: This alert does **NOT** mean your information or accounts have been compromised in any way. Chiphone, nor your account, has experienced any sort of data breach. This tool is simply a password check to reassure your password isn't a likely password used in previous compromises.

AGAIN, YOUR ACCOUNT AND INFORMATION IS SAFE!
